DETAILED ACTION

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

2. Claims 56, 61-66, 71-73, 75-78 and 81 directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 58-60, 67, 69-70, 79 and 80, directed to non-elected specie, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 7 October 2005 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. The following rejection is deemed proper.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 56, 58-67, 69-73, 75-81 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Compounds of formula (2a) according to present claim 56 wherein R⁶ is a hydrocarbon chain containing 10-60 carbon atoms such that there is at least a ten carbon atom spacing along R⁶ between [TM]_U-(L⁴)_V-[R⁷]_P-(L³)_Q- and -(L¹)_N-C(R²)(R³)(R⁴) is not disclosed in the application as filed.

Consequently the subject matter of present claim 1 goes beyond the Content of the application as filed.

The subject matter of present claim 60, i.e. a lipid according to formula (2a) according to present claim 56 wherein v is the integer 1 and L⁴ is a group -NHCO(Alk²)_t, is not disclosed in the application as filed.

Consequently the subject matter of present claim 4 goes beyond the content of the application as filed.
